

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Michael Klein
DOCKET NO.: 04-27823.001-R-1
PARCEL NO.: 14-33-421-056-0000
TOWNSHIP: North

The parties of record before the Property Tax Appeal Board (PTAB) are Michael Klein, the appellant, by attorney Edwin Wittenstein of Worssek & Vihon LLP of Chicago and the Cook County Board of Review (board).

The subject property consists of a four-year-old, two-story single-family dwelling of frame and masonry construction containing 2,160 square feet of living area and located in North Township, Cook County. The residence contains two and one half bathrooms, a full basement, air conditioning, a fireplace and a two-car garage.

The appellant, through counsel, filed an appeal before the Property Tax Appeal Board and submitted a recent appraisal suggesting that the fair market value of the subject property is not accurately reflected in its assessed valuation.

The market value estimate of \$900,000, offered by the appellant, was developed from a residential appraisal with an effective date of January 1, 2003. The appraisal contained the cost approach and the sales comparison approaches to value.

In the appraisal's cost approach, the appraiser estimated the land value to be \$650,000. The appraiser estimated the replacement cost of the depreciated improvements to be \$229,121, resulting in an improvement cost, including site improvements of \$15,000, to be \$244,121 and arrived at a total value under the cost approach of \$894,121.

The next approach developed by the appellant's appraiser was the sales comparison approach. The appraiser used three comparable residential sales that ranged in size from 2,200 to 2,250 square feet with ages ranging from five to seven years. The comparables

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$17,795
IMPR. \$72,115
TOTAL: \$89,910

Subject only to the State multiplier as applicable.

sold between February 2002 and December 2002 for prices ranging from \$868,750 to \$900,000, or from \$386.11 to \$409.09 per square foot of building area. Having considered the market conditions and having made various adjustments for the comparable sales, the appraiser was of the opinion that the subject property had a market value of \$398.05 per square foot of building area or a rounded figure of \$900,000 for the sales comparison approach to value.

In reconciling the two approaches to value, the appellant's appraiser estimated that the subject had a market value of \$900,000 as of January 1, 2003.

Based on this evidence, the appellant argued that the subject's current assessment be revised and that the proper level of assessment for Cook County class 2 property be applied to the subject.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$125,183, or \$57.96 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered three suggested comparable properties located within a quarter mile of the subject. The comparables consist of two or three-story, masonry or frame and masonry buildings ranging in age from one to four years. The comparables contain full basements, two finished, two-car garages, two or four bathrooms with half baths, air conditioning and fireplaces. These properties contain between 2,202 and 3,738 square feet of living area and have improvement assessments ranging from \$57.95 to \$59.33 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. *Property Tax Appeal Board Rule 1910.63(e)*. Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. *Property Tax Appeal Board Rule 1910.65(c)*. Having reviewed the record and considered the evidence presented, the Board concludes that the appellant has satisfied this burden.

The PTAB reviewed the appellant's appraisal containing the sales comparison approach and the cost approach to value. The board

did not provide an appraisal report. The Board finds the best evidence of market value is the appellant's appraisal.

The PTAB finds that the best evidence of market value is the appellant's sales comparison approach to value. Having considered all the evidence the Board finds the subject property had a market value of \$900,000, as of the assessment date.

Since the PTAB has determined that a reduction in the subject's assessment is warranted based upon a market value argument, the PTAB finds no need to address the board's equity argument.

Utilizing the Department of Revenue's 2004 three-year median level of assessments for Cook County Class 2 property of 09.99%, the subject's market value found herein should reflect a total assessment of \$89,910. Since the current total assessment of \$142,978, is greater than the assessment warranted by the subject's market value, a reduction is appropriate.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
